# Summary .

I'm currently an embedded software engineer at Motorola Solutions writing software for encryption products. I'm passionate about building, tinkering and making things better.

# Work Experience \_\_\_\_\_

Motorola Solutions Chicago, Illinoi

SOFTWARE ENGINEER II Mar 2019 - Present

- Developed encryption software and security-related features for multiple embedded products.
- Implemented cross-platform applications for a variety of different host architectures.
- Integrated legacy code base with modern continuous integration and deployment tools.

Motorola Solutions Chicago, Illinoi

SOFTWARE ENGINEER I

- Implemented testing framework using IP Stack and TCP/UDP Protocols.
- · Developed and integrated test diagnostic software for encryption products within a telecommunications infrastructure.

### **Education**

#### **University of Illinois Urbana-Champaign**

Urbana-Champaign, Illinoi.

M.S IN COMPUTER SCIENCE

2019 - Present

 Relevant Courses: Distributed Systems (Cloud Computing), Parallel Programming, Theory and Practice of Data Cleaning and Text Information Systems.

#### **Northern Illinois University**

Dekalb, Illinois

Jan 2018 - Mar 2019

B.S IN COMPUTER SCIENCE

2015 - 2017

- · Distinction: Cum Laude
- Relevant Courses: Data Structures, Algorithms, UNIX, Networking, Databases, iOS Mobile Programming, Assembler Mainframe, Java, Operating Systems, Computer Architecture and Systems

### Extracurriculars\_

#### **Schaumburg Motorola Hackathon**

Schaumburg, Illinois Jan. 2019 - Apr. 2019

TECHNICAL ENABLEMENT LEAD

- Led a team to setup required technical infrastructure for hackathon, hosting approximately 100 participants.
- · Team enabled participants to use GitLab, GitHub, Cloud Instances alongside proprietary Motorola hardware.

Google Extension Google Chrome Store

MINIMALIST

Feb. 2019 - Present

- I developed and maintain a minimal note taking application for Google Chrome.
- · Available for download in the Google Chrome Store.

iOS Application Northern Illinois University

UniBoard

Dec. 2016 - Feb. 2018

- I developed a social media iOS application that allowed university students to sign up and communicate publicly through posts and images.
- · Firebase was used for the back-end and data store to allow users to comment and like other user's posts.

## Skills\_

- Languages: C, C++, Python, Java, Swift, Javascript and Scripting(Shell, PS1, Batch)
- Tools: Git, Docker, GDB, ARM debugger, Clearcase, Jenkins, Docker, Artifactory, Conan, CMake, and Azure
  - **Platforms (Cross Platform Dev):** Windows, Linux, ARM, RHEL, and Motorola Proprietary Hardware **Higher Level:** Technical understanding of the software development lifecycle, excellent at debugging,
- i problem solving, and diverse experience working on multiple embedded systems relating to cryptography and telecommunications.
